Independent Services

think success

In these times of increased regulation, listed companies are finding that their advisory needs cannot be met by one firm alone as good governance requires the separation of audit from non-audit work.

As an AIM-listed company ourselves, Vantis understands the importance of independence and are aware of the restricted services that auditors of public companies can provide to their clients.

Our dedicated Public Companies Group is focused on providing specialist, high quality services to clients quoted on the Official List or listed on AIM or PLUS. In addition, we advise UK subsidiaries of overseas listed companies which we do not audit.

Our specialist services include:

Accounting

- Preparation of accounts under IFRS or UK GAAP
- Conversion to IFRS for companies planning a listing
- Outsourcing, including accounting and payroll

Valuation services

- Valuation of share options and other share-based payments
- Transfer pricing assistance and negotiation

Taxation

- Preparation of tax and deferred tax provisions

Human resources

- Recruitment and compensation services

In addition, members of our team can act as non-executive directors of public companies, bringing not only significant business experience to the Board, but also a range of other skills and knowledge of the operation of public markets.

Through our international network, HLB International, we can assist clients to do business in over 100 countries and can advise on all aspects of accounting, international tax planning and structuring. We have experience of successfully working with our international colleagues to bring overseas companies to the London markets and can advise on strategies and structures for achieving this aim.

The services provided by Vantis' Public Companies Group are not limited to the above so, to arrange an initial meeting to see how we can help you and your business, please email publiccompanies@vantisplc.com or call our Public Companies Group enquiry line on **+44 (0) 845 602 4590**.

Alternatively you can visit our website at www.vantisplc.com/publiccompanies for the latest information about Vantis' Public Companies Group and our individual contact details.
